Cover letter

My name is Paul Zaher, I have a multicultural background. My Father is Canadian/Arabic (Worked in UAE for 23 years), My mother is Norwegian, and I am British/American. I have lived in multiple countries including Egypt 9 years, Norway 15 years, England 5 years, U.A.E 8 months, and currently reside in Asia. I speak and write English and Norwegian fluently, I took my bachelor's engineering degree in Norway and my Masters in USA. When I was a child, I spoke Arabic fluently while living in Egypt.

I hold two passports United Kingdom and the U.S, I also have resident and work permit in Norway. I am not married, and I have no children, so I am very flexible to moving and/or traveling.

I understand other cultures and adapt very quickly to new environments due to my multiethnic background and living all over the world.

I thoroughly enjoyed working in the field and have both office and field experience. I have worked for Baker Hughes before and got good reviews while working there, please see attachments. My strong sides are strong work ethic, honesty and communication.

Included is a link to my webpage for cementing.
